Friskies Land & Sea Adventures is formulated to meet the nutritional levels established by the AAFCO Cat Food Nutrient Profiles for all life stages.

RECOMMENDED DAILY FEEDING AMOUNTS

Weight (lbs)	Feeding Amount (cups)
5-9	1/3 to 2/3
10-14	2/3 to 3/4

Using a standard 8 oz measuring cup

FEEDING ADULT CATS

Feed 1/2 the indicated amount twice a day. Or you can fill the bowl with the entire amount every morning. Some cats will eat more or less, depending on their age, weight and size. Feed to maintain ideal body condition.

FEEDING KITTENS

Kittens generally nibble solid foods at 3 - 4 weeks of age. Keep moistened Friskies Land & Sea Adventures available to these kittens at all times. Just add one part liquid to three parts Friskies Land & Sea Adventures, changing frequently to ensure freshness. After weaning, at 6 - 8 weeks of age, kittens

will normally eat dry or moistened food at will. Start a self-feeding program, leaving food in the dish at all times. Feeding amounts should be adjusted as necessary to help your kitten maintain an ideal body condition.

FEEDING FOR REPRODUCTION

Friskies Land & Sea Adventures provides the extra nutrition needed by reproducing females in stages of gestation and lactation. Food consumption may vary during gestation, so feed the amount needed to maintain the pregnant female's good body condition. Food intake may double or even quadruple during lactation.

FEEDING TIP

Changes in your cat's diet should be made gradually to allow your cat to become accustomed to a new food. Substitute small amounts of the new food for the old food, gradually increasing the amount of the new food while decreasing the old food, over a period of 7 - 10 days. This gradual transition will help avoid dietary upsets.

Provide adequate fresh water in a clean container daily.

For your pet's health, see your veterinarian regularly.

ABBREVIATED FEEDING DIRECTIONS:

RECOMMENDED DAILY FEEDING AMOUNTS

Using a standard 8 oz measuring cup

Weight Feeding Amount	
(lbs)	(cups)
5 - 9	1/3 to 2/3
10 - 14	2/3 to 3/4

These amounts are averages and your cat's needs may differ. Feeding should be adjusted as necessary to maintain an ideal body condition. Feed kittens and pregnant or nursing cats all they will eat three times per day.

Provide adequate fresh water in a clean container daily.

For your pet's health, see your veterinarian regularly.
