100 and over	2-1/2 cups plus 1/3 cup for each 10 lbs of body weight over 100 lbs	3-1/2 cups plus 1/3 cup for each 10 lbs of body weight over 100 lbs	5-3/4 cups plus 1/3 cup for each 10 lbs of body weight over 100 lbs	6-1/3 cups plus 1/3 cup for each 10 lbs of body weight over 100 lbs	10 cups plus 1/3 cup for each 10 lbs of body weight over 100 lbs

Using a standard 8 oz measuring cup.

Amounts are recommended for an average puppy with normal activity. Remember food intake requirements vary depending on age, activity and environment, and should be adjusted accordingly.

FEEDING WEANING PUPS

Puppies start to nibble on solid foods at 3 - 4 weeks of age. Keep moistened Puppy Chow Tender & Crunchy (three parts kibble to one part water) available to puppies at all times until fully weaned (6 - 8 weeks of age).

FEEDING GROWING PUPS

After weaning, Puppy Chow Tender & Crunchy can be fed moistened or dry at the same time every day - very young puppies three times a day, older puppies twice a day. Use the feeding guidelines shown here, but remember individual needs can vary. Feed to maintain ideal body condition as shown. Slight appetite changes and occasional digestive upsets are normal in puppies. If upsets become severe or linger longer than a day or two, contact your veterinarian.

FEEDING FOR REPRODUCTION

Puppy Chow Tender & Crunchy provides the extra nutrition needed by reproducing females in stages of gestation and lactation. Food consumption may vary during gestation, so feed the amount needed to maintain the pregnant female's good body condition. Food intake may double or even quadruple during lactation.

SWITCHING TO PUPPY CHOW TENDER & CRUNCHY

When switching to Puppy Chow Tender & Crunchy from another food, please allow 7 -10 days for the transition. Gradually add more Puppy Chow Tender & Crunchy and less of the previous food to your pet's dish each day until the changeover is complete. This gradual transition will help avoid dietary upsets.

Provide adequate fresh water in a clean container daily.

For your pet's health, see your veterinarian regularly.
